

Casamilano

To properly look after the product, it is best to follow a number of simple and useful indications which will help keep it in excellent condition.

CLEANING AND MAINTENANCE

Silver leaf

Steel

Metals

Chrome

Mirrors

We advise using a soft damp cloth and then drying.

Lacquer

Avoid using products containing solvents, alcohol, thinners, acetone or abrasive products. We advise using a soft damp cloth and then drying.

Wood

Avoid using products containing solvents, alcohol, thinners, acetone or abrasive products. We advise using a soft damp cloth and then drying, following the direction of the wood grains.

Marble

Treated with anti-stain protection. To avoid halo, dry immediately any liquid, that can penetrate and damage the top. Avoid using products containing solvents, alcohol, thinners, acetone or abrasive products, use only a soft damp cloth and then drying

Fabrics

Dry clean.

Leather

We advise using a soft damp cloth and then drying.

Cast aluminium

We advise using a dry woollen cloth.
